PARTNERS IN HEALTHCARE DOCUMENTATION & COMPLIANCE

Occupational Health: A state-by-state case

Because coding and billing guidelines for Occupational Health facilities vary from state to state, knowing the ins and outs of these guidelines is essential to receiving the reimbursement you've earned, as well as addressing the appeals process for denied claims. BDA can assist your staff in using all applicable guidelines and processes for the best results. We support your appeals process with our in-depth knowledge of Workers' Compensation laws, CPT coding guidelines, ICD-9 coding guidelines, and Evaluation and Management guidelines.

What we do

Our experienced coding and financial professionals have worked side-by-side with thousands of healthcare experts like you to improve documentation and coding, which in turn increases revenue capture, grows compliance, and helps you focus on what matters most: practicing good medicine.

- » **We customize** our tools and solutions to meet your needs.
- » **We simplify** so you can adopt effective, consistent, and compliant processes.
- » **We educate** by listening and explaining until you are comfortable in your understanding.
- » **We streamline** processes by introducing best practices that will improve your revenue capture and grow compliance.

Success Snapshot: How BDA helped one OccHealth client

Like many Occupational Health facilities, one of our clients did not have its own certified coding experts on staff. BDA, with a professional staff that includes many certified and double-certified coding specialists, stepped in and supplemented the client's staff with our deep expertise in coding, billing, and the appeals process. We assisted the client with its documentation and coding and increased the number of approved claims.
